16. AGA Rangemaster Ltd reserves the right to cancel an order or invoice at the normal retail price where signed terms and conditions have not been received from the customer.

#### **AGA Cast Iron Cooker being traded in**

17. The owner's current cast-iron heat storage cooker will be removed by AGA as part of the Enhanced Trade In offer.
18. AGA approved engineers will remove the AGA appliance.
19. We will always try to remove the cooker in one piece to cause the least amount of inconvenience; situations may arise where this isn't possible so the cooker may need to be dismantled.
20. The consumer is responsible for full disconnection of the old (cast-iron) trade-in appliance from fuel supply and flue, prior to collection. If the Cooker being removed is Gas / Oil the consumer should arrange for their AGA to be disconnected from the fuel source and flue system prior to our Home Delivery team attending to undertake the removal.
21. Any appliance fitted with a water boiler will need the system drained and the pipe work disconnected and capped off prior to removal of the cooker. The primary flow will need to be capped and the primary return capped.
22. If the cooker is to be dismantled the surrounding working area should be protected and loose or freestanding objects removed. Depending on the age of the cooker it may be packed with a powdery substance which will need to be removed by hand, this may cause dust or dirt.

#### **Other Cast Iron cooker or non-Cast Iron cooker being traded in**

23. Where the appliance being removed is not an AGA cast-iron Cooker, it must be removed prior to collection and be on a suitable hard standing surface outside with reasonable access. We reserve the right to refuse to uplift the traded in appliance if these conditions are not met.
