

## POS Checklist - ER3

<p><b>FT or Postcode:</b></p> <p><b>Customer Name:</b></p> <p><b>Customer Address:</b></p>	<p><b>Cooker details:</b></p>	<p><b>Our shop will discuss this form with you while you are placing your order. If necessary you are welcome to take the form away and discuss the points raised with your contractors.</b></p> <p><b>If you take the form away with you, please return the completed copy to your Aga store at your earliest convenience. This will assist us with finalising your installation.</b></p>
--	-------------------------------	---

	Questions	Y	N	Notes
Access and parking	<p>Can the property be accessed by a 7.5 tonne lorry with a tail lift 2415mm (8ft 3in) wide?</p> <p>Are there any special permissions or permits req?</p>			
Route for delivery	<p>Is there a clear route into the kitchen?</p> <p>The minimum gap needed is 650mm (26in) through doors and hallways.</p> <p>Please give details or any steps, gravel areas, grass areas, uneven surfaces, obstacles, tight turns.</p> <p>Is any floor protection needed?</p>			
Floor	<p>What flooring will be under the cooker position? The cooker is positioned using wheels so the cooker must sit on the finished floor, to allow for installation and removal in the future. The floor must be <b>level</b> and capable of holding the weight of the cooker (&lt;310kg)</p> <p><b>The cooker base dimensions, weights and clearances can be found on pages 28-35 of your installation instructions</b></p>			
Position	<p>Will the cooker be positioned between base units?</p> <p>Will the cooker be positioned against a clear wall? If so please ensure this is marked to enable us to correctly position the cooker.</p> <p>Will the cooker be going into a recess? Is there space for a 3mm gap to be left each side of the cooker top plate?</p> <p>Is there space for a 650mm gap to be left above the cooker?</p> <p><b>The cooker dimensions and clearances can be found between pages 30-35 of the installation instructions</b></p>			

Rear wall	<p>Is the rear wall clear of pipes, wires, drains and other services? The rear wall must be clear of any obstructions</p> <p>How much gap should be left behind the cooker position?</p> <p>The minimum gap between the top plate and wall is set as 14mm, however if tiling behind or fitting a splash back afterwards we need to know how much extra forward the cooker will need to be on the day. The minimum gap of 14mm must be left open and uncovered.</p> <p><b>The cooker dimensions can be found between pages 30-35 of the installation instructions.</b></p>			
Worktop	<p>The cooker hotplate height is 913mm off the finished floor. Will your surrounding work surfaces match this height?</p> <p><b>The cooker dimensions can be found between pages 30-35 of the installation instructions.</b></p>			
Electrics (Main cooker incl warming plate)	<p>Where are you planning on positioning your electrical connections?</p> <p>The Aga requires a 32amp cooker switch within 2m either side of the cooker in the same room. This <b>cannot</b> be behind the cooker position.</p> <p>This then connects to an outlet plate within 2m either side of the cooker position or recessed into the wall behind the cooker within the set areas shown in the instructions. This is where the mains cable is connected</p> <p><b>The full electrical requirements can be found on page 36 of the installation instructions</b></p>			
Electrics (induction option only)	<p>Where are you planning on positioning your electrical connections?</p> <p>An additional electrical supply is required for the Induction unit. This connects using either a three pin plug and socket or a 13amp switched fuse spur. This must be within 2m either side of the cooker and within the set areas shown in the instructions. This <b>cannot</b> be behind the cooker position. Please note if you wish to use a plug this is not supplied with the cooker.</p> <p><b>The full electrical requirements can be found on page 36 of the installation instructions</b></p>

**Please provide any additional information which may be relevant to the delivery or installation of the appliance**

Occasionally certain circumstances may dictate that we will be unable to deliver your product using our standard delivery service. Should an external specialist team be required we will advise you in advance of any additional costs you may incur before we proceed with your delivery. A copy of this delivery and installation checklist should be returned to your store at the time of placing your order. Please retain a copy to assist you with preparing for your Aga installation.

If you have any queries once your order has been placed please feel free to call our installations team for further assistance. The team can be contacted Monday-Friday 9am till 5pm on 01952 643 534

If a delay is required to your installation date we need a minimum of five working days notice before the agreed date. Failure to provide this notice may incur a charge.
